---

Backend-focused Full-Stack Developer based in Venezuela with 2 years of IT support and development experience. Passionate about building scalable, cloud-first systems and meaningful tools that solve real-world problems. Bringing a practical, reliable approach to projects, specializing in API design, backend architecture, and security. Open to remote roles, freelance work, and global opportunities.

## EDUCATION

“U.E.P Jesus el Salvador” - Bachelor's degree

Aragua, Maracay

IUTAR - Associate's degree in computer science

Aragua, Cagua – May 2025

## WORK EXPERIENCE

Escuela Técnica Industrial Mariano Fernández Fortique

Aragua, Cagua

Full-Stack-Developer

Jan 2025 – Apr 2025

- Built a full-stack institutional website MVP for a public school.
- Developed secure backend APIs with Node.js and MySQL, including authentication and data protection.
- Delivered maintainable code and documented the development lifecycle.
- Collaborated with staff to gather requirements and deployed the solution to production.

Escuela Técnica Industrial Mariano Fernández Fortique

Aragua, Cagua

IT Support

Jul 2023 – Dec 2023

- Developed solutions for software/hardware compatibility.
- Reconditioned and upgraded equipment, improving the operational stability and performance of the computer systems.
- Worked collaboratively with the school's administrative and technical staff to ensure the effective execution of the maintenance plan.

Hospital José María Vargas

Aragua, Cagua

IT Support

Sep 2020 – Dec 2020

- Implemented a preventive maintenance plan for all computer systems within the school, ensuring improved performance and longevity of equipment.
- Diagnosed and evaluated the current state of the computer systems, identifying both hardware and software issues that required attention.
